JEFFRIES PLAYFUL IN TRAINING CAMP

wife in Thirty-Six Sec- | Shows Up Good in His Work. Making Armstrong and Choynski "Back Up."

> BEN LOMOND, Cal., May 11.-The Jeffrice training camp is in high spirits tonight because in his work-out today the retired, champion showed all of the vim his trainers could expect. He was to have resumed the gymnasium grind in the afternoon but changed his mind after lunch and with several of the attaches of the camp went by automobile to Sants Cruz for a dip in the surf. Besides working well with the gloves Jeffries was in a jocular mood and playfully cuffed his seconds around during the brief periods of rest. In boxing the fighter rushed both Armstrong and Choynski around at a merry pace, stepping after them furiously in good imitation of his real prize ring aggressiveness. Jeffries training camp is in high spirits

ship after them furiously in good imitation of his real prize ring aggressiveness.

After the boxing the big fellow tried the violent abdominal exercise which he used to reduce his waist line while traveling with his show. He sat on a backless chair with his feet on the rungs of another, leaned back until his head touched the floor, then arose rapidly to a sitting posture.

Jeffries claims that the practice of this exercise for the first time since he left the road accounted for his poor boxing last Monday. He said that just before putting on his gloves last Monday he worked at the exercise for ten minutes in his dressing room and when he was ready to box his stomach was so sore that he could not move without suffering pain.

Before Jeffries left Santa Cruz he and Sam Berger engaged in a conference which caused some speculation. Later Berger admitted that the list of eastern eligibles for referee had been cut down considerably. Aside from the list of Calliornians in the fight for the position Berger is now strong for three easterner—Buck Cornellus of Pittsburg; Charlie White of New York, and Otto Floto of Denver.

Mrs. Jeffries is recovering rapidly. She paid her second visit to the gymnasium today.

WASHINGTON. May 11—President Taft, who entertained the California delegation to congress and the California committee that is booming a Panama canal exposition at dinner at the White House tonight, declared he could see no reason why a double celebration of the completion of the Panama canal should not be held in this country in 1915—"A celebration at San Francisco, on the Pacific coast, and a celebration at some designated point on the Atlantic coast. The president authorized the exposition commission to make public his views expressed to them. He said he believed it was fitting the canal completion should be celebrated and "that the nations of the world sould be invited to join with the United States in holding the celebration.

"From present indications." the president continued, "the canal will be completed in 1915, therefore the time for preparation is not too long, and congress should act at once in the selection of the city or cities where such celebration should be held.

JOHNSON SURPRISES

Champion Dives Right Into Work and Shows Good Wind; Likes to Train.

SAN FRANCISCO, May 11 .- The Johnson programme of exercising was not changed in the least today, the third day

son programme of exercising was not changed in the least today, the third day since the colored man has been installed at the beach. Shortly after 8 o'clock in the morning he called together Tom Little, Cotton, Cutler and Barney Furey for the run over the boulevards and hills. Having mapped out a course that gives him about twelve miles of alternate level road and hill climbing. Johnson will stick to it for the present week at least.

He did not change his speed any, but went along carefully, sprinting for short distances and then falling back into a jog, and occasionally stopping to take a short rest and give those with him a chance to get their breath. The champion's wind, which it was thought might need a little nursing, has shown up in good condition, and the trainers are chuckling at the ease with which the heavyweight has started his work.

"Next week," said Johnson, when he had come in off the road, "I will increase the morning road work except on the days that I am to box. I don't want to start this thing too hurriedly."

Tex Rickard, who has returned from a trip to Ben Lomond, where he talked the referee question over with Jeffries, also had a conference today with George Little, manager of Johnson. Nothing came of it, however, and Rickard admits that the prospects are that the promoters will have to do their own selecting.

"Little told me," said Rickard, "that Johnson would stick out for either Jack Welsh or Eddle Graney. I don't believe there is a chance that Jeffries would accept Welsh, and I am not certain whether Graney would be satisfactory. But one thing is certain—if these men cannot reach an agreement Monday next, Gleason and I will take the matter into our own hands."

Joe Choynski, with his ideas of music and literature as related to pugilism.

I will take the matter into our own hands."

Joe Choynski, with his ideas of music and literature as related to pugilism, should be located in the Johnson camp instead of down at Ben Lomond with Jeffries. The Chicago heavyweight would find plenty of opportunity to work along his pet lines, for, although it may not be generally understood. Johnson is a great lover of music and has already organized an orchestra of his own, in which the fighter is one of the chief performers.

"How does Johnson pass the evenings?" has been a quention often asked.

Johnson is no himself is an expert musiclan on the bass viol, and next to his automobile he treasures the "big fiddle," as he calls it, and carries it with him wherever he goes. Mrs. Johnson is a violinist of no mean ability, and with George Cotton, who is a graduate of a southern college for colored men, a first-class plano player, the Johnson stringed orchestra has a fair start.

JOHN ENNIS WILL TRY TO GET WESTON'S RECORD

As a speciacular feature of his performance, Ennis will precede his Atlantic-Pacific hike with a bath in the surf at Coney Island and will conclude it in California with a swim in the Pacific.
